COCOM Document No. 3623

COORDINATING COMMITTEE

RECORD OF DISCUSSION

4287393

ON

A CANADIAN PROPOSAL TO EXPORT COBALT OXIDE TO POLAND

July 9th, 1959

Present: Belgium (Luxembourg), Canada, France, Germany, Italy, Japan,
Netherlands, United Kingdom, United States.

References: COCOM 3501, 3527, 3591 and Addendum.

The COMMITTEE noted the further information submitted by the Canadian authorities (Addendum to COCOM 3591) to the effect that the 5,000 kilos of cobalt oxide was the material for which the United Kingdom had already obtained the Committee's approval (COCOM 3527) for export to Poland. There would therefore be no further discussion of the Canadian exceptions request.
